Housing Facilities for the Elderly in Illinois

Compiled through cooperative efforts of:
the Illinois Housing Development Authority and the Illinois Department on Aging

UNIVERSITY OF
ILLINOIS LIBRARY
AT URBANA-CHAMPAIGN
STACKS

The Illinois Department on Aging and the Illinois Housing Development Authority are pleased to provide this 1978 listing of housing facilities.

The directory is a joint project of the Department on Aging, the Illinois Housing Development Authority and Sangamon State University. We have included only independent living facilities in this booklet. Listings of Intermediate I and II and Skilled Care facilities can be obtained from the Illinois Department of Public Health.

The facilities listed, from both the private and public sector, are those which responded to a survey questionnaire. Therefore, inclusion in this list should not be construed as an endorsement or recommendation, and we emphasize the necessity for careful personal investigation.

The special housing needs of older persons in Illinois indicated the need for this booklet, and it should be useful to citizens, legislators and the staffs of agencies providing services.

Authority

The Section 8 Housing Assistance Payments Program

The Section 8 Housing Assistance Payment Program - also known as Section 8 Existing Housing-- assists low and moderate income families and elderly persons to rent apartments of their own choosing in privately owned buildings.

The program encourages families to seek out their own apartments. Families having difficulty locating an acceptable apartment may ask their local housing authority for assistance.

Under this program the leaseholder pays directly to the owner no more than 25 percent of his adjusted income. This amount is computed by the housing authority. The authority sends an additional payment to the owner each month to make up the difference between the tenant's rent payment and the contract rent for the apartment. The contract rent plus utilities paid by the tenant cannot be more than the Fair Market Rent set by the U.S. Department of Housing and Urban Development. All apartments must be approved by the local housing authority. Housing authorities participating in the Section 8 Existing Housing Program are indicated on the following pages.
